5. New Business

Hearings (typically last around 20 minutes per application)

8:20pm

a. Continuation of Formal Hearing re: 20 Prescott Street for addition of side porch. Discussion about turning the stairs to go different way. M. Penzenik said re: landing we should be talking about minimum dimensions. Landing must be at least 3 feet deep and could be 3 ½ feet wide relative to the door. Window is going to be turned in to a door. B. Cohen said they need floor plan, plot plan, want to make it a minimum structure. What proposing is fairly large. Applicant said porch on back is 4 feet wide and was trying to match it. S. Makowka said this house would never have had as many exits, but because of the multiple families the need is now present. Something that is the dimensions of the back porch (4 x 4 landing) facing back. S. Makowka suggested that there's enough uncertainty that the Commissioners need to see drawings showing door, stairs, size of them. Couple of options coming forward, coming back might help. Sight plan, elevation and sketches would help Commissioners have a better understanding.

7. Other Business

- a. Nominations for Arlington Honor Awards Nomination Submitted
- b. Preservation Loan Program Update No report
- b. Outreach to Neighborhoods & Realtors No Report
- c. Update of Project List by Commissioners No Report

8. OPEN FORUM

Any matter presented for consideration of the Commission shall neither be acted upon, nor a formal decision made the night of the presentation

- S. Doctrow of 99 Westminster Avenue showed proposed solar panel project. 6 panels in front and 6 in back of dormer but all on tops of gable, barely visible from rights of way. The Commissioners agreed that as long as they don't raise a lot above the roof surface it's acceptable.
- C. Harris of 30 Jason Street (owner) concerned about replacing basement windows that have been damaged by termites. S. Makowka said house on Pleasant Street had a similar problem on a side basement window. Sills are rotted. S. Makowka said one possible alternative was a Fibrex window from outside looks like wood. Problem is vinyl contracts and expands and has its own problems. Second project is the porches need replacement. Pressure treated spindles and rails. If they have termites she wants to be able to go ahead and repair and replace porches. Square balusters 4" on center. Porches will be same footprint, design, but different type of wood materials. Sill and window well qualify for CONAs. Discussion whether porch replacements (if necessary) qualify for a 10 day certificate. Final decision that project not appropriate for 10 day.

Further discussion about window wells being dug and sill being replaced. Sill and window wells qualify for a CONA. Window well slightly larger than window with final to be approved by monitor prior to installation. Will legally notice window change and porch replacements for next month's meeting.
